Subject: Microsoft Settlement

To the Department of Justice,

I am writing to you as an american citizen, not as an advocate of or opponent to Microsoft. I am writing to address the injustice of the stipulation III.B.3. Never before in a criminal trial have I ever heard of the criminal being able to select the executors of the settlement, and then allow the criminal to reselect the executor should the U.S. government decide that the original executor was not dilligent. I do not understand how Microsoft gets to decide how its punishment is carried out, and how the law of the United States of America will comply to Microsoft policy.

I will not comment any further on the settlement of this case, though there is still so much that is obviously unfair within. If the Department of Justice allows this ruling to proceede, then it will be in clear defiance of not only the will of the people, but all prescedence set forth by the Justice Department in the past.

Sincerely

Christopher Delaney
